

DATA AND STATISTICS

For comprehensive national, state and transplant center data, visit these websites:

UNITED NETWORK FOR ORGAN SHARING (UNOS)

UNOS has developed an online database system for the collection, storage, analysis and publication of all OPTN data pertaining to the patient waiting list, organ matching, and transplants. Launched on October 25, 1999, this system contains data regarding every organ donation and transplant event occurring in the U.S. since 1986.

SCIENTIFIC REGISTRY OF TRANSPLANT RECIPIENTS (SRTR)

The Scientific Registry of Transplant Recipients is a national database of statistics related to solid organ transplantation - kidney, liver, pancreas, intestine, heart, and lung. The registry covers the full range of transplant activity, from organ donation and waiting list candidates to transplant recipients and survival statistics. Its purpose: to support the development of sound policy, to encourage research on issues of importance to the transplant community, and to facilitate responsible analysis of transplant programs and OPOs.
